

Linux.conf.au just around the corner

January 12, 2008 / Gavin Jackson

conferences

linux

open source

programming

In two weeks time, linux.conf.au will be hosted at the University of Melbourne. I'm pretty excited, and have started mapping out which talks I want to go see. Complete conference schedule is [here](#).

Here is my preliminary list (and is totally subject to change):
Monday 28/1/2008 Embedded Mini-conf
Tuesday 29/1/2008 Mysql Mini-conf
Wednesday 30/1/2008 Bruce Schneier Keynote -
Reconceptualizing Security Writing really rad GTK and GNOME applications... in C, Python, or Java!
presented by Davyd Madeley, Andrew Cowie
How to Build an Embedded Asterisk IP-PBX presented by
David Rowe
Tux's Angels: Incident Response Unravelled presented by Vanessa Tomah, Amelia
Charlton, Kate McInnes
Anatomy of a Video Codec presented by Timothy Terriberly
Thursday
31/1/2008 Keynote - Stormy Peters - Would you do it again for free?

Incident Response using PyFlag - the Forensic and Log Analysis GUI presented by Michael Cohen
Parrot: a VM for Dynamic Languages presented by Allison Randal
Linux and Home Automation -
Lessons Learned presented by Glenn Wightwick
The Replicators Are Coming! presented by Viktor
Olliver
Friday 1/2/2008 Keynote - Anthony Baxter - Two Snake Enter, One Snake Leave?

Seeking is hard: Ogg design internals presented by Ralph Giles
After 25 Years, C/C++ Understands
Concurrency presented by Paul McKenney
